Millcraft Named to Crain's Cleveland Business's 2015 FAST 52

Cleveland, Ohio, September 2015: Millcraft is proud to announce that for the second year in a row, the company has been named to Crain's Cleveland Business's list of 52 Fastest-Growing Companies. Presented by First Merit Bank, this award recognizes the entrepreneurial spirit, innovative business tactics and revenue growth of the fastest-growing companies in Northeast Ohio.

Why 52? Heralded as the city's most iconic structure since its construction in the 1920s, Cleveland's historic Terminal Tower is 52 stories tall. Crain's 52 will tell the stories of Greater Cleveland's future skyscrapers of business -- the 52 fastest-growing companies in the region.

Commenting on this year's repeat award, [Millcraft President Travis Mlakar](#) said, "This award recognizes our business strategy, growth and tactics but it is really about the heart and soul of our employees. Regardless of what industry you are in, business is changing and can be very challenging. To be recognized in this incredible group of companies shows that having a team of passionate, dedicated individuals is the difference when you are trying to accomplish great things. It is humbling, after being in business for nearly 100 years, that we continue to evolve and grow at record levels; 2015 has been our best year ever. This is because our team is never satisfied. We work diligently every day to understand our customers and our markets; we are always looking for the next opportunity. Thank you for this award. We look forward to many new endeavors and continuing to serve and grow with the businesses of Cleveland."

The 2015 FAST 52 rankings will be published in the November 9 issue of Crain's, but the [alphabetical list](#) can be viewed in the meantime on [Crain's website](#). All awardees will be honored at a reception on November 4 in Cleveland, where the top ten fastest-growing companies will be specially announced.
